

How on Earth did you make that?

Student Creative Recycle Art Program

The Student Creative Recycling Art Program, more popularly known as the S.C.R.A.P. Gallery, addresses two of today's most urgent issues – the environment and the education of our youth.

MISSION STATEMENT

It is our mission to actively engage youth as stewards of their environment through a hands-on, concentrated effort stressing the "Four R's"

- Reduce, Reuse, Recycle, Responsibility.

Conservation and reuse through hands-on exploration with discarded materials is promoted at the S.C.R.A.P. Gallery. Arts and science workshops and projects help kids understand complex environmental issues.

Waste prevention field trips are held at the S.C.R.A.P. Gallery's 15,000 square-foot facility located in Indio, California. In addition to the main facility, it also operates a 900 square-foot gallery annex exhibit at the Desert IMAX in Cathedral City, California.

The S.C.R.A.P. Gallery is a 501(c)(3) nonprofit organization overseen by Executive Director Karen Riley (pictured) and a six-member Board of Directors composed of educational and community leaders.

For more details about our programs or to receive our S.C.R.A.P. Gallery Network package, contact us at: 46-350 Arabia Street, Indio, CA 92201, (760) 863-7777 or reach us at our e-mail address:

scrapgallery@earthlink.net

68-700 Avenida Lalo Guerrero Cathedral City, CA 92234 (760) 770-0340

46-350 Arabia Street Indio, CA 92201 (760) 863-7777

The S.C.R.A.P. Gallery would like to thank the 2005/2006 Cathedral City Council members for their ongoing support of the environmental education for local youth.

How On *Earth*Did You Make That?

Well, you start with the Four R's and go from there.

This year's calendar shows the integration of art and the environment with projects big and small. All created under the auspices of the S.C.R.A.P. Gallery, the featured work is colorful, inventive and imaginative!

Students, professional artists, community leaders and volunteers, all committed to environmental stewardship make these projects come alive. Using scraps, strips, fragments and just plain old trash, amazing examples of artistic environmental renewal have been created.

Recycle! Take a look at your trash and see what you can do!

Notes:

1

How on Earth do you make this?

The twenty-four mosaic panels that adorn the Dinah Shore Bridge were created by fourth graders at Agua Caliente Elementary School located in Cathedral City, California.

Reused and recycled tiles were broken and reconfigured into scenes inspired by student sketches based on the theme, "On The Move."

How on Earth do you make this?

Something sweet to hold your Valentine treats and cards, you will need a brown paper grocery bag, old greeting cards, pinking shears, white glue and ribbons.

Draw a heart shape, as large or as small as you like, on a paper grocery bag. Cut it out with the pinking shears. After cutting the shape, you will have two hearts. Glue around the sides of the heart, but not the top (you will need an opening to insert your Valentines). With reused greeting cards, arrange a collage of art work on the front of the valise and glue the pieces down. Punch holes at the top of the Valentine and thread with ribbon, raffia or yarn to hang.

How on Earth do you make this?

The S.C.R.A.P. Gallery Annex, located at the Desert IMAX in Cathedral City, features an interactive exhibit for children and adults that introduces the "Birth of the Consumer Age" as it relates to our natural resources. Handcrafted panels were collaged with found metals. Tin cans were flattened and nailed on the panels to create an ongoing mural of the natural environment.

GlobeDiggers in Paperback

How on Earth do you make this?

GlobeDiggers is a club for kids in Kindergarten through 5th grade who learn how to preserve and protect the planet. These little booklets made by club members can be used as a personnel journal to record environmental happenings, recycling tools and tips. You will need paper lunch or gift bags, yarn, an assortment of scraps, photos and other little things, glue, a hole punch and scissors. Take two bags and fold over, punch holes on the outside fold and "sew" yarn through to bind the paperback. Decorate and create your recycled paper journal.

For more information about the Globe Diggers Club, go to www.globediggers.org.

S.C.R.A.P. Gallery

EnviroCotta Tiles

Indio, California

Lead Artist: Jennifer Johnson

These tiles are part of the Metamorphosis Mural at the main entrance to the S.C.R.A.P. Gallery. The tiles are all handmade by children, staff, artists and volunteers. The clay used is called EnviroCotta, a trademarked product of artist Jennifer Johnson and the S.C.R.A.P. Gallery. EnviroCotta is "recycled" and made from clay, shredded paper, laundry lint, water and ash.

On The Fringe From "Don't Trash My Planet" bu Karen Riley

How on Earth do you make this?

Native to the Coachella Valley, the Fringe Toad Lizard is a special desert friend. This project pays tribute to the lizard and is made with a card board soda container, pinking shears, glue, sequins and scraps. Draw or trace this lizard pattern on a scrap of cardboard (thin cardboard is easy to cut). Cut out the form. Decorate the lizard by gluing on sequins and scraps.

James Workman Middle School

"It's the Planet's Loss When You Don't Toss"

Cathedral City, California

Artist: Students of James Workman Middle School

This project was inspired by the local neighborhood's concern for the environment. Specially designed trash containers installed along 30th Avenue in Cathedral City feature the art work of students at James Workman Middle School. The young artists were asked to visually create art and slogans that would encourage local people to put their trash where it belongs!

Día De Los Muertos Frames

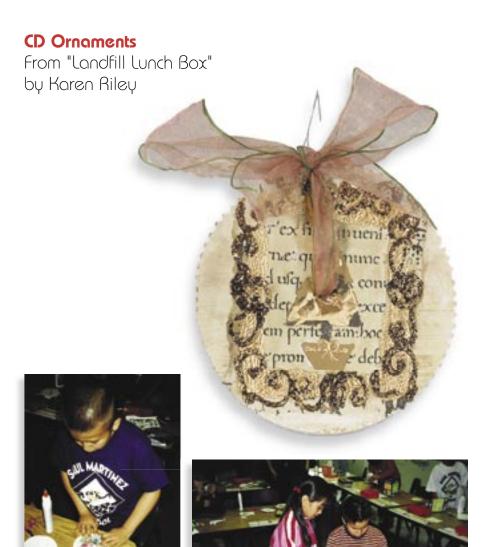

How on Earth do you make this?

Día de los Muertos is a Mexican tradition that honors the passing of departed loved ones. People build altars in their homes called ofrendas. The ofrenda celebrates the departed one and can be decorated with photos, flowers, candies and objects that provided pleasure. Día de los Muertos occurs on November 1st and 2nd. Using a variety of recycled materials, this ofrenda frame commemorates someone special in a festive manner.

To make the frame, you will need cardboard from a colorful cereal or cracker box, yarn, photos, sequins, scraps, glue, scissors and an old refrigerator magnet. Draw or trace a frame onto a piece of the scrap cardboard and cut out shape. Wrap with funky yarn scraps and decorate with sequins and scraps. Adhere photo inside frame and cover back with another piece of the cardboard and glue magnet. Now you can display your frame on the refrigerator for all to see!

How on Earth do you make this?

Take your old CDs and turn them into something pretty and festive for the holiday season. To make a CD ornament you will need only a few items: holiday cards, CDs, ribbon scraps, glitter, wire hook, pencil and scissors. Trace the CD on a card or paper. Glue on other glittery pieces, scraps or buttons. Cut a hole in the middle of the CD and thread ribbon through the center and tie it in a bow. Clip a wire ornament hanger to ribbon. The tree awaits!
